EDUCATION

Frontend Course -(youtube, freecodecamp, chatgpt,etc)

April 2024 - Present

Currently pursuing a frontend development course, where I am learning modern web technologies, including React.js, Tailwind CSS, and JavaScript, to build responsive and dynamic user interfaces.

Manasthali Education Centre, Reoti, Ballia (U.P)

April- 2022 - April- 2023

I completed my 12th from Manasthali Education Centre in 2023, where I gained a strong academic foundation and valuable learning experiences.

PROJECTS

Starbucks Clone — November 2024 (*CODE* , *LIVE*)

Cloning Starbucks is a web project built using React.js, Tailwind CSS, and the Starbucks website's design and layout. It features smooth UI interactions, responsiveness, and modern styling for an immersive user experience.

Product Lists Cart — October 2024 (*CODE* , *LIVE*)

Product Lists Cart is a web app built using React.js, Tailwind CSS, and Context API for state management. It enables users to efficiently add, remove, and track items in a seamless shopping cart experience with a clean and responsive UI.

Focus On Today — October 2024 (*CODE* , *LIVE*)

Focus Today is a productivity-focused web app that helps users track their daily tasks and goals. It features a simple and user-friendly interface designed to enhance concentration and efficiency.

AllCountries-api — september 2024 (*CODE* , *LIVE*)

Developed a web application using React.js that fetches and displays country details from the REST Countries API.

SKILLS

Web UI: HTML, CSS

Program language: Javascript

Frameworks: React.js, Tailwind CSS.

Others: Git, Github, Redux
